BLACK FRIDAY 2022

Best Choice

# ROCKETPEN READER

*Read anything  
anywhere.....*

RocketPen Reader is designed specifically to enable people with reading difficulties and various degrees of learning disabilities such as dyslexia to scan a word and hear it spoken aloud quickly and easily. The portable RocketPen Reader supports the reading experience by vocalizing scanned words or phrases and providing instant definitions and translations from the New Oxford American Dictionary. Adults can use the RocketPen Reader at work or for their reading pleasure with a book, magazine, etc.

## MAIN FEATURES:

- Scans single words or full line of text.
- Displays selected word in large font to enable easier, clearer viewing.
- Displays definitions, synonyms, and translations of the scanned text.
- Reads the scanned text aloud.
- Displays syllabic division of selected word. This feature found to be very helpful for children and adult with reading difficulties.
- Spell out – each scanned word can be spelled out letter-by-letter.
- Definitions – the RocketPen Reader contains accurate and comprehensive Oxford dictionary.
- Direct Lookup feature of idioms and phrasal verbs.
- Two display modes: Toggle between abridged and complete definition/translation display.

## COLOR TOUCH SCREEN
